	AGE	5 years	6 vears	7 vears	8 vears	9 years	10 years	11 years	12 years	13 years	14 years	15 years	16 years	17 years	18 years	19 years	20 years	21 years	Total	Normal	Over age	Under age

Enter each child according to the grade in which he is enrolled, and his age as of his last birthday on or before September first. Begin with the first grade. Find how many are 5 years sure that the number listed above for each grade and for each age is the same as the number enrolled for that grade and for that age. The numbers enrolled are to be taken as R+S (see old, f years old, 7 years old, 8 years old, etc., and enter in the proper column. B denotes boys, G denotes girls, and T denotes total. All those above the heavy lines are under age, all those between the heavy lines are normal, and those below are over age. For example, in the third grade all those under 8 are under age, and all those 10 years of age or over are over age. Be "Source of Enrollment"). This will give an age-grade distribution for the whole state, excluding duplicates. Do not count any except those enrolled the first time in school this year, and those enrolled by transfer from another state. Pupils transferred from other schools will be reported by the school from which they came. Pupils which leave your school will be reported by you, no matter where they transfer to. TEACHER'S ANNUAL REPORT—Concluded
